

How to Apply? How to renew an expired forklift licence?

If you have an old paper or OHS forklift licence or expired licence you will have to provide the following information to obtain a current licence:

- A copy of the old licence;
- Logged hours under supervision of a forklift licensed person;
- A copy of the supervisor's forklift licence.

Ag Training will issue you with a learner's guide (we can supply the learners guide as a video with a voice over), which you will have to study, as the written assessment is a closed book assessment.

If you have literacy and numeracy issues, the written assessment may be an oral assessment (which means the trainer/ assessor can ask questions to you the trainer/ assessor can write your own answer).

The procedure for the assessment is as follows:

- We have to give WHS three full working days notice, before the assessment can be undertaken;
- The written assessment is undertaken first and you have to pass it before the practical assessment is undertaken;
- The practical assessment is next;
- If you are deemed competent on the forklift you will be issued with an AS1 form, which will allow you to operate a forklift in the workplace legally
